My alien is friendly. His body is a yellow rectangle. My alien has one eye. His antennae are white. My alien lives on the moon. Arya

For mother's day we made a tea cup for our mum. We got a tic tock biscuit and put some frosting on it and stuck on a marshmallow. Then we put more frosting on top of the marshmallow and stuck on a chocolate freckle. Next we got half a musk life saver and put frosting on both of the ends and stuck it on the side of the marshmallow. My mum ate it and she liked it. Mitch
