

KINDERGARTEN

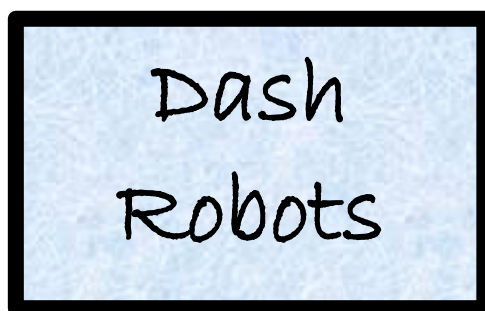

korner

In Kindergarten we have been doing lots of new and exciting things! We were introduced to the Dash robots - they are so much fun! While Mrs Stobo has been away we have been getting messy with Mrs Stone making monsters out of clay and doing mono-printing to make houses. We have also been continuing to practise our sh, th and ch sounds and are becoming superstars at them! In Maths we have been comparing different objects to see which ones have a bigger or smaller area. Our teachers Miss Sheehy and Mrs Meyers have also been learning lots of new things. Last week, they went to a course to further their learning about the best ways to teach us how to read. We are always busy and learning new things in Kindergarten!

The dash robots can make lots of different sounds like a pig and a cow sound

- **Fraser** -

The dash robots can move around wherever you want when you use the Wonder app on the ipad

- **Keira** - .

The dash robots can move around when you use the ipad. You can make them go left and right.

Art with
Mrs Stone

Clay monsters

In art we have been making monsters out of clay. We painted our monsters, put eyes, sharp teeth and hair on them.

- **Woody** -

Mono-print houses

We used paint and a comb to put the patterns on our houses. My house has a triangle for a roof and has a chimney made out of blue and red paper.
