

What I Learnt in the Got-It! Group Today

Week 1

Introductions

This week is all about getting to know each other. Children introduce themselves by choosing an animal that they feel is like them.

Story Time: "Whoever You Are"

Children are encouraged to think about and appreciate what makes us the same and what makes us different. This story builds on positive social skills and acceptance.

Craft – Who Am I?

Children decorate a shield that represents them and their favourite things. Children are encouraged to talk about things that may be the same or different between them.

Key Learning Week 1

This week's group content is mainly for introductory and rapport building purposes, however, also explores positive social skills. Children explore the concept of same and different through the story 'Whoever You Are' and complete a craft activity exploring this concept further.
