

Can you believe it is the final week of Kindergarten?! We have grown and learned so much this year and have shown our teacher's, Miss Sheehy and Mrs Meyers, that we are definitely ready for Year One! We wish all SIPPS families a very Merry Christmas!

Our last couple of weeks in Kindergarten has been filled with lots of Christmas activities. We read a story called 'How to Catch an Elf' and built our own Elf traps. When we came back to school the next day to find that some Elves had definitely been into our classrooms as there was magic elf dust left behind in our traps!

Here we all are, hard at work, creating our traps to catch those sneaky elves! We used boxes, egg cartons, pipe cleaners, straws, bags, string and many other supplies.

The elf goes down the slide and then he falls onto a trampoline. Then he goes into a dark place and climbs up the ladder. Then he has to go jump, jump, jump on this stuff. -Woody

If he goes in front of the roof he will get stuck and then get caught. -Finn

Well it works like this, so Marshmallow climbs up our ladder that we made, then he falls in a bag and if he can climb out he goes down the green pole which lands in the cup. If he stays there we catch an elf! -Poppy

The elf might fall inside the tissue box. Our house looks pretty so that the elf will want to be inside it. We put a straw on it with a cover so he won't get wet.

-Fraser

The elf has to fall over the string and the cup keeps it down in the bag full of colourful sticks and will keep the elf in there until the morning.

-Jenson

Mrs Meyers set us a STEAM challenge.

Who could build the tallest Christmas tree using the red cups?

We had so much fun and some of our Christmas trees were taller than us! Nicole, Keira, Phoebe and Jasleen's Christmas tree was the tallest. It was taller than Mrs Meyers! The best part was getting to knock it over once we had finished!
