

KINDERGARTEN

korner

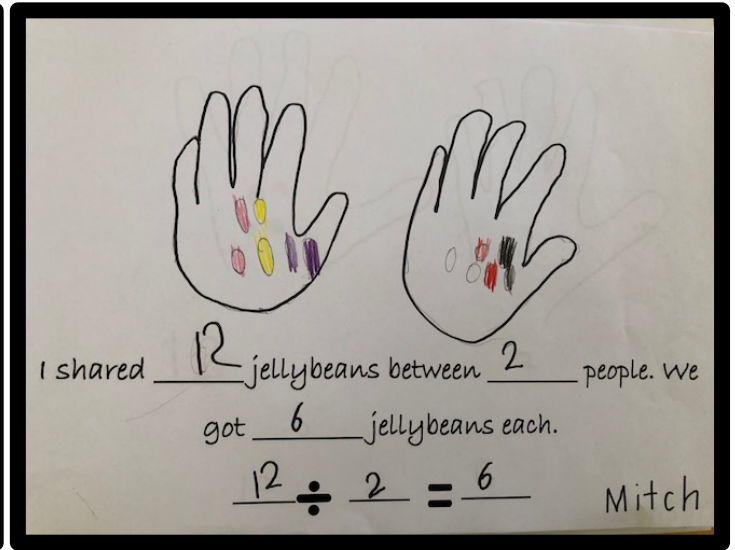

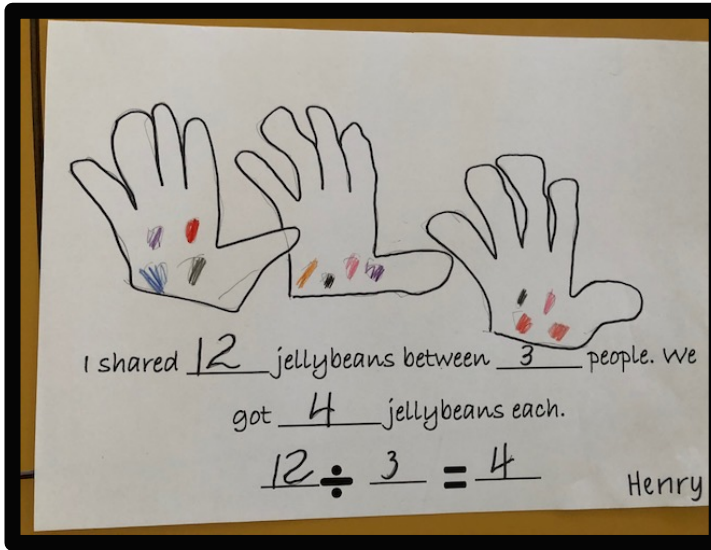

Now, can you believe we are already at the end of Term 3! The last couple of weeks have been very busy in Kindergarten! Amongst learning lots of new things like what letters make the 'ay' and 'ee' sound, how to solve multiplication and division problems by using arrays and sharing items one at a time and learning all about our school and local community in Geography, we have also had 'Fiver for a Farmer' Day, our Teddy Bears' Picnic and don't forget tomorrow night we have SIPPS Spectacular!

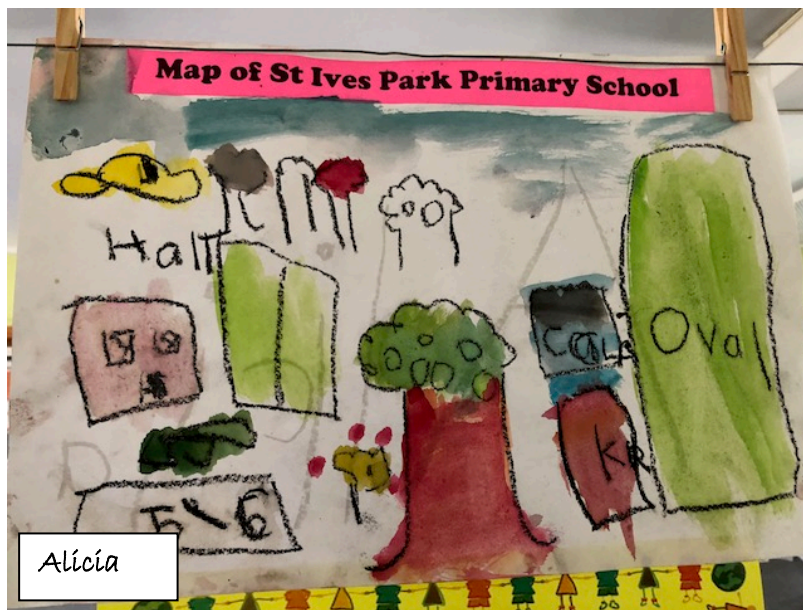

Maths

Mrs Meyers and Mrs Woodwell gave us 12 jellybeans to share equally between 2, 3 or 4 friends. We then traced around our hands and shared our jellybeans to see how much each person got. We then got to eat 2 jellybeans.

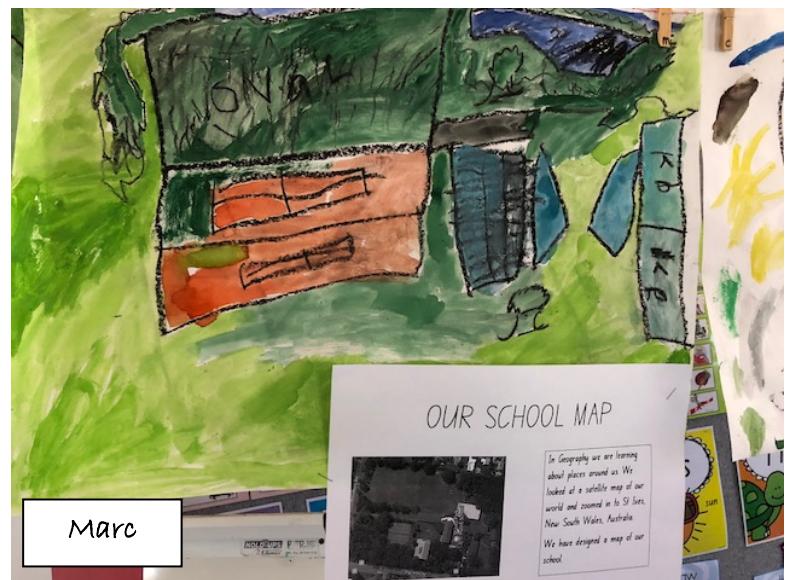

Yum!

Geography

In Geography, we have been learning about 'Places'. We have been talking about our houses, our school and the different places in the St Ives community. We looked at St Ives Park Primary School on Google Maps. We then drew and painted a map of our school.

We had our Teddy Bear's Picnic with the new Kindys starting next year and we had lots and lots of fun! We did lots of games like making our teddies pop like popcorn on the parachute, we took our teddies on an obstacle course, we threw the big purple ball to each other, we played with the hula hoops and tossed balls through the teddy's belly. Miss Sheehy also read us 'We're Going on a Bear Hunt' while we ate a picnic with our teddies and the new Kindys.
