

Advanced notification of work on Mona Vale Road, St Ives from Wednesday 12 June

The NSW Government is funding this project as part of the NSW Safer Roads Program to improve road safety for motorists.

Between 2011 and 2016 there has been 19 accidents at the Mona Vale Road and Douglas Street intersection at St Ives. Most accidents occurred during the day and were caused by motorists turning right into or out of Mona Vale Road.

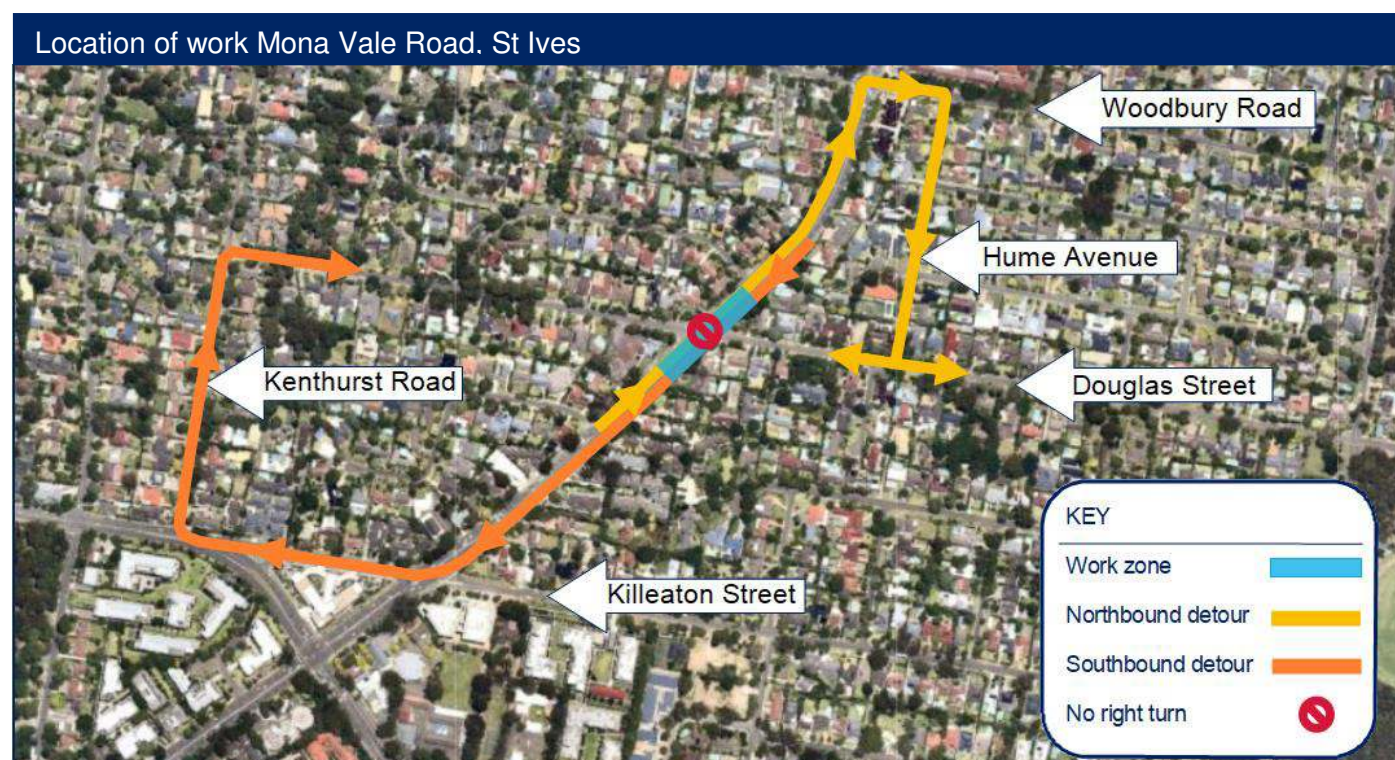

To reduce crashes and improve safety for motorists, Roads and Maritime Services will install a raised concrete median, preventing road users from turning right into or out of Mona Vale Road and install No Right Turn signs at the intersection.
