Term 1!

Robotics and Coding at St Ives Park Public School

Our **after school classes** will teach your children about technology as they program robots and other gadgets, write code and create their own computer games.

We blend children's passion for technology together with their creativity, love of making things and lots of fun to provide a dynamic learning experience.

Your child will build foundation skills that will have a positive impact across their academic, social and creative endeavours.

Technology is at the centre of how we innovate, build and communicate. In today's world, those who know how to use technology have a real advantage over those who don't.

We bring all the technology; you just need to bring your sense of discovery and creativity!

Thursdays 3.15 to 4.30pm
